

Masport®

NZ

OUTDOOR POWER EQUIPMENT 2020/21

110 years in the making

With 110 years of innovation, Masport has grown to become a market leader for outdoor garden and lifestyle products. Synonymous with quality and reliability, the brand has been trusted by Kiwis for generations.

Due to ongoing success, Masport is sold in over 45 countries worldwide and continues to develop outstanding products that have been recognised by gaining the Winner Trusted Brand 2018, 2019 & 2020 for Lawnmowers.

EVERY LAWN IS DIFFERENT

Which is why Masport has developed a comprehensive range of lawn and garden equipment. Masport mowers have been designed to meet the needs of the heaviest lawn conditions and the longest mowing times, therefore they are built to last.

EXCEPTIONAL WARRANTIES

We are committed to quality and performance. On offer is a full comprehensive warranty, so you know exactly what is covered with the Masport Platinum Series lawnmower range.

Masport push mowers featuring Briggs & Stratton engines receive an industry leading exclusive **5 year comprehensive warranty on the entire mower***. Giving extra confidence and longevity for these lawnmowers.

OUR LAWNMOWER CHASSIS AND PARTS WARRANTIES

We offer you an impressive 10 year warranty on all aluminium chassis. If you prefer a steel chassis you'll enjoy a 5 year warranty*. Both aluminium and steel push options come with a 5 year warranty on ALL parts*.

LIFETIME CATCHER WARRANTY

Masport's HDPE Plastic Catcher comes with a Lifetime Warranty.

BRIGGS & STRATTON STARTING PROMISE

Briggs & Stratton 500, 600, 700 and 800 series engines include a Starting Promise. If they don't start in line with the starting promise, return it to an authorised Briggs & Stratton engine service agent, and they will fix it for free*.

RapidStart™ engines will always start with a maximum of 5 primes and 4 pulls, or it is fixed for free*.

With ReadyStart™, there's no need to manually prime or choke the engine on your mower, even from a cold start. Now even the least experienced lawn mower user can confidently start their mower. This engine should start on one or two pulls, or it is fixed for free*.

*Conditions apply, see www.masport.co.nz for more information.

LITHIUM-ION POWERED LAWNMOWERS

M-TECH® POWER MANAGEMENT

Masport has made durable and high-performance lawnmowers for over 80 years and know how to make a lawnmower that can be trusted and relied on to last.

Masport M-TECH® is a new power management system which provides the latest lithium-ion battery technology to power brushless induction electric motors that will match the performance of many domestic petrol powered models.

Load sensing technology adapts the mower to the cutting conditions, sensing grass thickness and optimising power requirements for the best quality of cut, balancing power and maximising runtimes through intelligent and efficient energy use.

The M-TECH® mower range has a model suitable for most residential yard sizes. The 58V model is ideal for small to medium sized lawns and if more power and run time is required, the 84V model is the right choice, perfect for larger lawns and more demanding conditions.

Utilising the same handles, disc system, wheels, catcher and cutting deck which are used as those equipped to our petrol motors, there is no compromise on quality or performance.

The M-TECH® mower range will give you the freedom and convenience that comes with lithium-ion battery technology on a Masport mower that's proven to perform for years to come. Now you can just push a button and mow instantly with emission free power and true mower performance.

ALL M-TECH® MOWERS ADVANTAGES:

- Zero emissions
- Low noise
- Push button starting
- Minimal maintenance requirements
- 5 stage LED battery level gauge
- Long run times

ALL 58V AND 84V LITHIUM-ION LAWNMOWERS ARE BACKED BY OUR 5 YEAR DOMESTIC MOTOR AND BATTERY WARRANTY

SEE PAGES 20-21 FOR MORE DETAILS ON THE LITHIUM-ION POWERED MOWER RANGE

FEATURES

MASPORT BLADE SYSTEMS

Masport Quickcut® 2 Swingback Blade System

For superior cutting, mulching and catching performance, Masport mowers are fitted with unique blade cutting systems. The Masport Quickcut® blade is a top quality, specially designed blade system for cutting and mulching.

Masport 2 & 4 Blade Disc System

This blade system runs 2 or 4 swing back blades suitable for catching and mulching applications and is fitted on selected Masport President® catching and mulching models.

Masport Quadcut® 4 Blade Disc Cutting System

A specially designed four blade disc system, great for catching due to increased airflow.

Masport Quadcut® with Chipper Blade

The additional chipper blade allows your mower to chip branches up to 35mm / 1 3⁄8" into garden mulch, when fed through the mower via the Chipperchute.

Swingback Feature

All these blade systems have a swingback feature, designed to protect the crankshaft from damage should the mower hit a solid object.

WHEELS

Masport's adjustable dual bearing wheels make the mower easy to push and, with a threaded axle and nut, the wheels can easily be adjusted if they become loose after significant use. These wheels are made of polyethylene and designed to last. They have been vigorously tested for 600+ hours to ensure quality and durability.

CUTTING HEIGHTS

Push lawnmowers have a range of cut heights, from 10mm -70mm (3⁄8" - 2 3⁄4"). Height can be adjusted in one simple lever movement which is much faster than systems that require each individual wheel to be adjusted.

COMBO 2'N1
Catch and mulch options on these mowers.

COMBO 3'N1
These mowers have catch, mulch & side discharge options.

GENIUS 4'N1
These mowers have catch, mulch, side discharge & chip options.

PVC Grip

For added comfort during operation

MSV Handle

Wide diameter, with soft grip for added comfort

Soft Grip

For superior comfort and less vibration during mowing

One Piece lower handle

Reinforced lower 'U' handle for added strength

Two Piece

Stub handle with no middle bar for easy catcher access

A RANGE OF CHASSIS SIZES TO SUIT YOUR NEEDS

High-arch design

Allows airflow created from the blades to draw the grass upwards for multiple cut cycles before flowing into the catcher, creating enhanced mulching and catching performance.

420MM (16.5") CHASSIS

- Smaller cutting chassis for smaller lawns or tricky grass areas
- Easy to manoeuvre

460MM (18") CHASSIS

- High-arch design
- Single Mowzone (left side)

485MM (19") CHASSIS

- High-arch design
- Wider cutting width
- Dual Mowzone®

540MM (21") CHASSIS

- High-arch design
- Wider cutting width
- Dual Mowzone®

530MM (21") UTILITY CHASSIS

- Wider cut
- Specially designed Side Discharge chassis
- Strong and reliable for demanding conditions

* Please note, not all mowers in our range contain all of these features

THE MASPORT ADVANTAGE

The Masport Platinum series offers a range of mowers to suit your needs, lifestyle and budget and will help you achieve that perfect lawn. The models in this range are feature rich, innovative and truly high performance mowers. Look for the icons that represent the features you require throughout the brochure.

HANDLE LIFT SYSTEM

The Handle Lift System allows you to quickly and easily access the catcher (or Smartchute® system). Simply step on the foot pedal and lift the handle, it's that easy! Once the handle is returned to the operating position, it will lock in firmly providing responsive handling. It also reduces storage space.

SELF PROPELLED

Let the mower do the work. These models are fitted with a self drive system. All you need to do is squeeze the self propelled bail to the handle to propel the mower forward. This reduces pushing effort making mowing quicker and easier!

REAR DISCHARGE

With the rear discharge chute, the mower can be used effectively without a catcher. It is designed to work with Masport's unique 'high-arch' housing and blade systems which generate great airflow. The grass is spread across the full width of the chute and directed downward.

MOWER STARTING

Zone Start
The conveniently positioned starter cord eliminates the need to bend all the way down to pull-start, reducing the risk of back strain.

INSTART® & INTEGRATED INSTART®

Briggs & Stratton's InStart® & Integrated InStart® lithium-ion electric start engines take the guessing game out of starting your lawnmower. No more priming, choking or pulling the rope. These engines combine the power of petrol and the starting reliability of lithium-ion battery technology.

MASPORT DUAL MOWZONE®

With the blade coverage extending beyond the wheel width on both sides, the mower can cut closer to walls, kerbs and fences, giving a cleaner finish to your lawn.

MULCHING

When you mulch there is less weight to push and no stopping to empty the catcher. The high-arch chassis design and the special blade means it also naturally recycles your grass by re-cutting the clippings and feeding them back into your lawn. You will save on watering and lawn fertilisers, as well as time.

MOW N'STOW®

Masport and Briggs & Stratton have designed a concept to make storage easier and more efficient. The Masport crafted exclusive handle system folds upright and then back on itself to create a sturdy base. The Briggs & Stratton designed engine tips backwards up to 110° without any fuel or oil leakage and is completely safe. Mow the grass, stow the mower - Save significant shed space!

CHIPPERCHUTE

An innovative development in lawn mowing that means your mower can do more than cut grass. Shred branches up to 35mm in diameter by using the additional chipper blade turning it into useful mulch. As branches are chipped, the chips are fed back into the catcher so you can put the mulch into your compost or garden.

SMARTCHUTE®

Mow without the catcher and avoid messy grass clumps. The Masport patented Smartchute® will side discharge a clean spread of clippings as you mow to leave your lawn looking wonderful. Just engage the unique feature and begin mowing.

Robust steel flap

Mulching option

2 swing back blade system protects the motor from damage

Dual Mowzone®

Large 8" x 8" dual bearing front and rear wheels

High density polyethene (HDPE) catcher with "full" indicator

Upturned upper handle with soft grip and camlocks

Weight : 26.7kg

42V 7.5AH LI-ION BATTERY127390

42V 7.5Ah lithium-ion Battery - 270Wh

Motion sensing 4 stage LED battery charge level indicator

Non self discharging lithium-ion cells and no memory effect

Long service life

Made in Germany

Battery charge time: Charge time - Up to 150 minutes

Weight : 2.3kg

42V 3A BATTERY CHARGER127572

42V 3A Output

Battery charge time, approximately 150 minutes

LED battery charge status indicator

Battery charge time: Battery charge time - 42V 7.5Ah - 150 minutes

Weight : 0.8kg

CONTRACTOR SERIES

BUILT TOUGH, MADE TO LAST

Great gardens and professional looking landscapes demand equipment that is hardworking and reliable.

GT AGILITY PRO 3 SPEED COMMERCIAL TRANSMISSION

A commercial grade, all metal, constant mesh, oil lubricated, cone clutch gearbox featuring precision bearings to the shafts. Designed for commercial applications, it provides reliability and durability. Ground speeds at 3200rpm are: 1st - 3.74 km/h, 2nd - 5.11 km/h, 3rd - 6.63 km/h, providing the perfect speed-to-job ratio demanded by contractors and homeowners with large yards.

PROFESSIONAL CAST ALUMINIUM WHEELS & PRECISION BEARINGS

Professional grade, heavy duty, cast aluminium 8" front & 9¼" rear wheels with synthetic rubber tyres are extremely tough and are designed to operate under commercial conditions.

Each wheel is complemented by dual 6202 precision sealed bearings, making the mower easy to push, virtually maintenance free and long lasting.

LARGE CAPACITY DACRON CATCHER

The double lined Dacron catcher with dust cover holds 80L. The fabric catcher improves airflow maintaining catching performance, while the dust cover directs airflow downwards, reducing dust updraft for the operator.

STEEL REAR DISCHARGE CHUTE

Designed to work without a catcher or mulch plug, the rear discharge chute will spread the grass across the full width of the chute and direct the cut grass toward the ground. This allows the user to mow at any height without the need to stop mowing to empty a catcher, reducing mowing time and running costs, plus recycling the cut grass.

BOLT IN AXLES

The front axle is held firmly in place with steel bearing plates bolted directly to the chassis, which also securely retains the plastic axle pivot bush tight. The rear axle is bolted directly to the chassis through the rear bearing chassis, providing a strong fix to the mower.

BUMPERS

A front bumper and engine guard offer protection to the cutting chassis, front axle and engine. These bumpers also provide a valuable lifting handle and tie down point to secure the mower.

ROBUST HANDLES & HEAVY DUTY CONTROLS & CABLES

Large diameter and heavier gauge upper and lower handles withstand the heavy forces applied to provide extra durability. The lower handle has additional bracing, reducing any lateral movement.

The heavy duty control and cables are extremely robust and resilient to breakage and wear, providing greater longevity.

FEATURES

Blade Brake Clutch (BBC) allows you to disengage the rotation of the mower blades without having to stop the engine.

HANDMOWER

This premium hand mower, constructed in heavy-duty steel is fully adjustable. The heavy-weight cast alloy wheels fitted with solid rubber tyres provide remarkable traction, unseen on other hand mowers. Heat treated 6 blade alloy-steel cutting cylinder and bottom blade cut the lawn cleanly, much like a pair of scissors, delivering a manicured professional looking finish which will be the envy of your neighbours.

ELECTRIC MOWER

The Masport Electric Mower is an easier way to mow the smaller lawn - no fuel to mix, just plug it in and mow.

CLEVELAND 18"

552803

- FEATURES**
- 13mm - 56mm cutting range
 - 460mm (18") cutting width
 - Heat treated alloy steel 6 blade cutting cylinder and bottom blade.
 - Comfortable T-Style handle with cushion grips
 - Robust Fabric Catcher included
 - 9" Cast Alloy wheels with solid rubber tyres
 - Strong steel drive pinions
 - 2 Year Warranty

ELECTRIC MOWER

552800

- FEATURES**
- Powerful 1600 watt motor gives the mower enough power to tackle a small to medium sized lawn
 - 420mm (16.5") cutting width
 - Ergonomic height adjustable upturned handle with PVC grip
 - Large 45 litre catcher
 - Suits small to medium sized lawns with light to medium grass conditions
 - 2 Year Warranty

CYLINDER MOWERS

Great for helping to create a bowling green look to be the envy of the neighborhood.

400 RRR

019108

- FEATURES**
- Powered by Briggs & Stratton 127cc OHV Series 550 IC horizontal shaft engine
 - 405mm (16") cutting width
 - Centrifugal clutch reel engagement
 - Steel 6 blade cutting reel
 - 7 - 30mm cutting height
 - Standard cut: 124 per metre
 - 50 litre HDPE plastic catcher
 - Single bail drive system
 - 205mm diameter rubber lined split steel rear roller
 - Comfortable upturned upper handle with PVC grip
 - 2 Year Warranty

500 RRR

019109

- FEATURES**
- Powered by Briggs & Stratton 127cc OHV Series 550 IC horizontal shaft engine
 - 505mm (20") cutting width
 - Centrifugal clutch reel engagement
 - Steel 6 blade cutting reel
 - 7 - 30mm cutting height
 - Standard cut: 124 per metre
 - 70 litre HDPE Plastic Catcher
 - Single bail drive system
 - 205mm diameter rubber lined split steel rear roller
 - Comfortable upturned upper handle with PVC grip
 - 2 Year Warranty

500L RRR

019113

- FEATURES**
- Powered by Briggs & Stratton 163cc OHV 5.0HP engine
 - 505mm (20") cutting width
 - Centrifugal clutch reel engagement
 - Steel 6 blade cutting reel
 - 7 - 30mm cutting height
 - Standard cut: 124 per metre
 - 70 litre HDPE plastic catcher
 - Single bail drive system
 - 205mm diameter rubber lined split steel rear roller
 - Comfortable upturned upper handle with PVC grip
 - 2 Year Warranty

500 GOLF

019111

- FEATURES**
- Powered by Briggs & Stratton 163cc OHV 5.0HP engine
 - 505mm (20") cutting width
 - Centrifugal clutch reel engagement
 - Steel 10 blade cutting reel
 - 4 - 30mm cutting height
 - Standard cut: 207 per metre
 - 70 litre HDPE plastic catcher
 - Single bail drive system
 - 195mm diameter split steel rear roller
 - Comfortable upturned upper handle with PVC grip
 - 2 Year Warranty

660 RRR

019114

- FEATURES**
- Powered by Briggs & Stratton 163cc OHV 5.0HP engine
 - 670mm (26") cutting width
 - Centrifugal clutch reel engagement
 - Steel 6 blade cutting reel
 - 7 - 30mm cutting height
 - Standard cut: 124 per metre
 - 82 litre HDPE plastic catcher
 - Single bail drive system
 - 205mm diameter rubber lined split steel rear roller
 - Comfortable upturned upper handle with PVC grip
 - 2 Year Warranty

CYLINDERS & BLADES

6 blade cutting cylinder & standard bottom blade with front split steel roller

7-30mm (1/4" - 1 3/16") cutting heights

Standard Cuts:
124 per metre / 113 per yard

10 blade cutting cylinder & shaver bottom blade with one piece front steel roller

Cuts down to 4mm (5/32")

Golf Cuts:
207 per metre / 189 per yard

OUTDOOR POWER EQUIPMENT

5 TONNE LOG SPLITTER, KINETIC

552882

- FEATURES**
- 1500W, 240V motor
 - Simple to operate and maintain
 - Electric power means less noise and no fumes
 - Can also be used indoors or in covered areas
 - 280mm (11") max log diameter
 - 400mm (16") max log length
 - The ram return is spring loaded making resetting for the next log fast and easy
 - Splits most logs in less than 2 seconds
 - Rugged wide-stance design provides stability
 - Wheels for portability
 - 2 Year Warranty

7 TONNE LOG SPLITTER

552608

4 way splitting attachment

- FEATURES**
- 2300W, 230V motor
 - Simple to operate and maintain
 - Electric power means less noise and no fumes
 - Can also be used indoors or in covered areas
 - 320mm (12 1/2") max log diameter
 - 520mm (20") max log length
 - Hydraulic 7 tonne ram
 - The ram return is spring loaded making resetting for the next log fast and easy
 - Splits most logs in less than 12 seconds
 - Rugged wide-stance design provides stability
 - Wheels for portability
 - 4 way splitting attachment included
 - 2 Year Warranty

8 TONNE LOG SPLITTER, KINETIC

553001

- FEATURES**
- 1600W, 240V motor
 - Simple to operate and maintain
 - Electric power means less noise and no fumes
 - Can also be used indoors or in covered areas
 - 350mm (13.75") max log diameter
 - 520mm (20.5") max log length
 - The ram return is spring loaded making resetting for the next log fast and easy
 - Splits most logs in less than 2 seconds
 - Rugged wide-stance design provides stability
 - Wheels for portability
 - 2 Year Warranty

PETROL EDGER - 80CC

550919

- FEATURES**
- Powered by Loncin 80cc horizontal shaft OHV engine
 - Ten position height control and large cutting range allows for different height settings for a variety of purposes
 - Cutting Range: 2cm above ground to 6cm below ground
 - 240mm (9.5") Bar Blade
 - Fold down handles are designed for convenient storage
 - OPC controls for added safety that contains "lockout" feature to prevent accidental operation
 - Height control system adjustable from operating position
 - 150mm (6") front and 200mm (8") rear ball bearing wheels
 - 4 Year Warranty*

PETROL EDGER - B&S

550913

- FEATURES**
- Powered by Briggs & Stratton 127cc OHV Series 550 IC horizontal shaft engine
 - Ten position height control and large cutting range allows for different height settings for a variety of purposes
 - Cutting Range: 2cm above ground to 6cm below ground
 - 240mm (9.5") Bar Blade
 - Fold down handles are designed for convenient storage
 - OPC controls for added safety that contains "lockout" feature to prevent accidental operation
 - Height control system adjustable from operating position
 - 150mm (6") front and 200mm (8") rear ball bearing wheels
 - 4 Year Warranty*

4 WAY HOME GARDENER

550905

- FEATURES**
- Powered by Briggs & Stratton 127cc OHV Series 550 IC horizontal shaft engine
 - Sturdy shaft drive with worm-drive gearbox transmission
 - 280mm (11") tilling width without outside tines
 - 430mm (17") tilling width standard
 - Lightweight - 46.3kg
 - Simple controls and rugged construction
 - Comes with tines, garden aerator, lawn edger and cleaning brush
 - 4 Year Warranty*

6.0HP CHIPPER SHREDDER

BIO2021

- FEATURES
- Powerful 6.0HP 205cc OHV IC Briggs & Stratton engine
 - Double chipper blades
 - Larger branches can be fed through the 50mm x 50mm side chute
 - 9 flail hammer blades
 - Weeds and other garden materials are reduced to a fine mulch so they can't regenerate
 - Large pneumatic wheels and hopper handle for manoeuvrability
 - Bar grate which is designed to avoid clogging with damp leaves and foliage is included
 - V-Belt drive system
 - 4 Year Warranty*

Bar Grate

CHIPPER SHREDDER - 196CC

BIO2027

- FEATURES
- Powered by Loncin 196cc OHV engine
 - Double chipper blades
 - Larger branches can be fed through the 50mm x 50mm side chute
 - 9 flail hammer blades
 - Weeds and other garden materials are reduced to a fine mulch so they can't regenerate
 - Large pneumatic wheels and hopper handle for manoeuvrability
 - Bar grate which is designed to avoid clogging with damp leaves and foliage is available as an optional extra
 - V-Belt drive system
 - 4 Year Warranty*

Bar Grate

5.0HP CHIPPER SHREDDER - HONDA

BIO2026

- FEATURES
- Powerful 5.0HP 160cc Honda GX160 engine
 - Double chipper blades
 - Larger branches can be fed through the 50mm x 50mm chipper chute
 - 9 flail hammer blades
 - Weeds and other garden materials are reduced to a fine mulch so they can't regenerate
 - Large pneumatic wheels and hopper handle for manoeuvrability
 - Bar grate which is designed to avoid clogging with damp leaves and foliage is available as an optional extra
 - V-Belt drive system
 - 4 Year Warranty*

WARRANTY AND DISCLAIMER INFORMATION:

All Masport products carry a manufacturer's warranty. Please refer to your warranty card supplied with each product for details and conditions for specific models.

This brochure supersedes all previous Masport Lawn & Garden range brochures. Product specification, colours and prices are subject to change without prior notification. Not all models may be stocked at all stores. Whilst care has been taken in the preparation of this document, Masport is constantly improving and updating its product range, therefore model specifications may vary and should be checked at time of purchase.

Masport products are covered by the following design registrations:

405399, 407916, 407917, 411355, 411354, 417631, 418171, 407915, 407913, 411353, 414788, 414789, 414790, 414791, 414792, and patents: 330634, 570911, 589942/590235, 605098, 605114.

Masport Limited New Zealand

320 Ti Rakau Drive, East Tamaki,

PO Box 14-349, Panmure,
Auckland 2013.
